My Sub K-12

The My Sub K-12 mobile application simplifies job searching for substitute teachers, helping them locate available substitute jobs in their area. This intuitive, easy-to-use application empowers substitutes to find vacant positions tailored to their schedules and qualifications in school districts that utilize Tyler Technologies' Absence & Substitute. Substitutes can then accept and manage jobs, and access the job search resources they need directly through My Sub K-12.

FIND THE RIGHT JOB FOR YOU

With My Sub K-12, substitutes can review job openings available at their desired school districts. The in-app search engine displays local vacant positions as soon as they open. They can view relevant job details such as positions, classes, schedules, breaks, contacts, and customizable notes to choose the jobs best suited to their preferences.

Accept jobs with one click
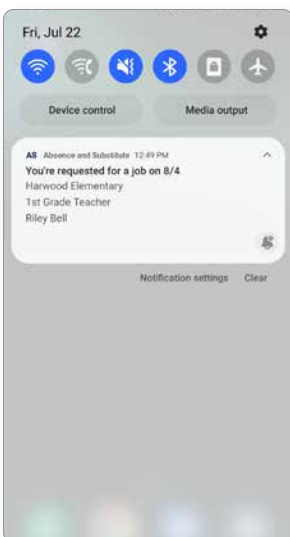

COMMUNICATE INSTANTLY WITH DISTRICTS

After finding a desired job in My Sub K-12, substitutes can review and accept the job directly through the app. The school district will be automatically notified and will be able to provide additonal details, such as lesson plans and seating charts, to help set the teacher up for success in the classroom.

View your accepted jobs

STAY ON TOP OF YOUR SCHEDULE

Substitutes can use the 'My Jobs' screen to track all their accepted jobs and view their upcoming schedule. Substitutes may also access lesson plans, if provided by the district, in order to prepare adequately for their upcoming class.

Receive push notifications regarding your jobs

SAVE TIME WITH PUSH NOTIFICATIONS

With My Sub K-12, substitutes can be notified instantly about job openings in their area via push notifications. After establishing a relationship, districts can also send job requests directly to specific substitutes they know are a good fit.
