Absence & Substitute for Indiana

With Absence & Substitute™, Indiana school districts are empowered to easily post jobs, quickly fill them with qualified substitutes, and intuitively track employee absences. Tyler Technologies is proud to support Indiana and nearly 1,000 clients nationwide with substitute scheduling and absence management software designed for the K-12 environment.

Tyler Technologies' Absence & Substitute empowers Indiana schools to find and retain the best candidates for open positions. This solution uses a simple, intuitive interface to track employee absences and efficiently find the most qualified substitutes. Absence & Substitute also has high levels of customization, with more automated notification options than any platform on the market to ensure effective communication with your substitutes. Integration with Tyler's school ERP solutions further supports districts with end-to-end visibility across personnel and finance needs.
