

Open Finance

FINANCIAL TRANSPARENCY

Use data and analysis tools to educate, inform, and engage the public.

INTERACTIVE VISUALIZATIONS

Dynamically understand, analyze, share, and embed data.

IMPROVED EFFICIENCY

Reduce the backlog of Freedom of Information Act requests.

Open Finance provides unparalleled data access and analysis tools to help your organization implement principles of transparency, participation, and collaboration. Local governments and school districts are increasingly expected to provide high-value information to help stakeholders understand how their tax dollars are being collected and spent. Open Finance solves this through a cost-effective, proactive approach to financial transparency.

BEYOND TRANSPARENCY

A comprehensive suite of applications, Open Finance organizes your financial data in an easily consumable, interactive way that encourages greater community involvement and helps the public understand and engage in local government and school district finances. Branding and content are fully customizable.

ACCESSIBLE DATA

Community members and policymakers can access Open Finance directly from a school district or municipal website via computer, tablet, or smartphone. Seamless integration with Tyler's ERP applications helps local governments and school districts yield the highest ROI on open data initiatives while eliminating the barriers to data and the technical problems encountered with other data analysis products. Open Finance is designed for all levels of technology proficiency.

EFFECTIVE COMMUNICATION TOOLS

Open Finance searches across all financial data — Open Budget, Open Expenditures, and Open Payroll — to provide intuitive results with familiar search capabilities. The highly engaging visual interface is easy to navigate, and the graphics are organized by category, department, function, and vendor, providing insightful information for internal stakeholders and making it popular with community members. It has been designed to automatically answer the most commonly asked questions and is compliant with public record laws in 50 states.

UP-TO-DATE AND ACTIONABLE DATA INSIGHTS

- Automatic updates to public records and reporting
- Easy access to historical data for benchmarking and procurement
- Dynamic search functionality
- Social sharing and the ability to embed views into third-party websites
- Interactive reports
- Section 508 compliant
- Reduce backlog of Freedom of Information Act requests
- Quick, low-cost, cloud-based deployment
- No additional hardware, IT support, or training required

A SUITE OF FOCUSED APPLICATIONS

With Open Finance, data can be quickly deployed and communicated across your organization and to the public. Open Data helps you proactively identify issues, fraud, and trends by updating datasets frequently utilizing current data. Easily review expenditures and understand how funds are appropriated by department as well as which vendors receive payment, and research spending for healthcare and benefits. Interactive charts and graphs allow for easy analysis and understanding.

OPEN FINANCE: A SINGLE SOURCE OF TRUTH FOR FINANCIAL DATA TRANSPARENCY

Three ready-to-deploy applications include:

Budget

Publish the details of your operating revenues and expenses directly to your branded website. Eliminate static reports and give the public a clear picture of actual vs. budgeted financial information, helping community members understand organizational priorities and their impact.

Expenditures

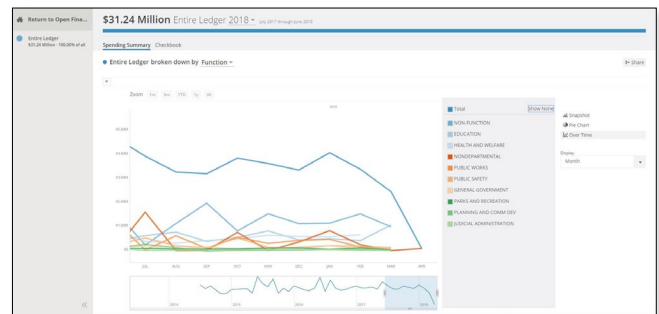

Share the transaction-level details of your organization's expenditures. This application delivers detailed spending and contract data, and allows users to navigate, analyze, and download underlying data to find specific answers to a variety of questions.

Payroll

Find answers to common questions, including total size of the payroll, top employees, top departments, median pay, and more. A summary page delivers at-a-glance departmental, job function, or individual employee information, and you control the level of payroll information published.

Tyler Technologies' interactive data transparency solutions are available in two bundles:

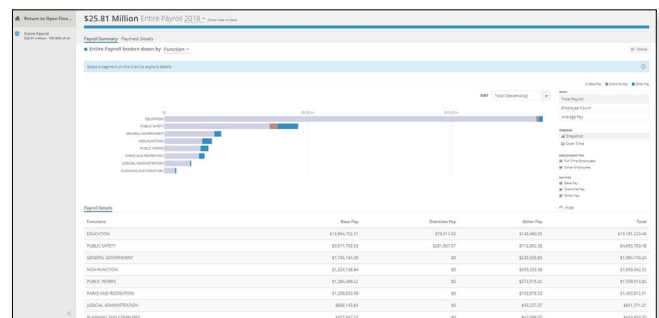

- Open Finance: Includes operating budgets, expenditures, and payroll
- Capital Projects: Includes capital budgets and projects

Budget

Expenditures

Payroll

Tyler's team will work with you to translate your complex chart of account structure into visualizations that are easy to navigate and understand. Open Finance puts information at your fingertips while reducing your IT and hardware burdens — making an immediate impact on your open data initiatives.
