

Engagement Builder

powered by AccessGov

A ROBUST SELF-SERVICE DIGITAL GOVERNMENT APPLICATION

Engagement Builder (powered by AccessGov) is an end-to-end digital government solution designed to take the guesswork out of modernizing the user experience. Government agencies can quickly develop new online forms, services, and applications using no-code drag-and-drop modules. Staff can access and manage data from an intuitive administrative dashboard, creating streamlined and improved user journeys without straining IT resources. Designed for flexibility, Engagement Builder can function as a stand-alone solution to put new services online or integrate with other applications using our secure API.

TYLER'S ENGAGEMENT BUILDER SOLUTION IS TRUSTED BY GOVERNMENT AGENCIES ACROSS THE COUNTRY, INCLUDING:

- State of Maryland, Governor's Appointments: Board and Commissions
- State of Indiana: FOIA requests
- Montana Local Government: Missoula County Online Title Work
- 11 Colorado State Agencies and Counties: DORA Division of Insurance Implementation and CDA Pesticides Pilot Program

BENEFITS

- Eliminate outdated paper processes with modernized, digital forms
- Create robust, end-to-end applications and services

 no coding required
- Manage digital content and access data quickly and easily
- Streamline workflows and create efficiency for agencies
- Improve the user experience with guided search, forms directory, and natural language search

...continued on back

For more information, visit tylertech.com

KEY FEATURES:

- Easy-to-use drag-and-drop form builder modules
- User-friendly administrative dashboard
- Online digital document publishing and management
- API integration with legacy systems
- Access data through the REST API, file extract, or Perceptive Content integration
- Add secure, online payments integration
- Reliable email notification
