

Community Readiness

A HUB FOR SOCIAL GOOD

Community Readiness, an application within Tyler’s Enterprise Corrections suite, provides services, jobs, and resources to equip incarcerated individuals with the proper tools they need for successful re-entry.

Community Readiness connects the dots — creating a centralized online hub for corporations, social/economic partners, and authorities to connect individuals with the services they need.

BRIDGING THE ACCESSIBILITY GAP

Thousands of individuals are released from imprisonment every day. Many people are incarcerated in unfamiliar cities, with no one to call and without sufficient money for a bus ticket back to their home city. Because many of these individuals lack a place to work or home to sleep, a recidivism cycle inevitably proceeds, a cycle Community Readiness aims to end.

In addition to career offerings, the Community Readiness resource network directly helps those who need it in the areas of life they need it most, including:

- Advocacy and Legal
- Education
- Emergency
- Family and Community
- Food and Clothing
- Financial
- Health
- Housing and Transportation
- Personal Development

685,000

incarcerated individuals in state/federal facilities have children at home ¹

10.4 MILLION

individuals are arrested every year ²

9.6 MILLION

individuals are released from prison/jail every year ³

...continued on back

Community Readiness works to bridge the gap in the accessibility to resources, making it easy to connect incarcerated and formerly incarcerated individuals to verified social care providers through an online hub.

**Accurate, Comprehensive Resources**

Direct relationships with local governments, facilities, and organizations to provide users with accurate and comprehensive resources.

**Company Partnerships**

Reliable partnerships with good and equitable companies looking to hire incarcerated and formally incarcerated individuals to provide meaningful employment.

**Ease of Access**

Collaborative partnerships with the facilities and software companies in the justice industries to provide resources at the source where the users already interact.
