

FIRE PREVENTION MOBILE *powered by MobileEyes®*

Payments

SAVE PAYERS TIME

Pay online instead of mailing checks or paying in person.

STREAMLINE PAYMENTS PROCESSING

Reduce check handling and over-the-phone credit card processing.

REDUCE COST

Tyler handles the credit card processing. The solution is at no cost to the department.

A SINGLE SOURCE FOR ALL OF YOUR PAYMENT PROCESSING NEEDS

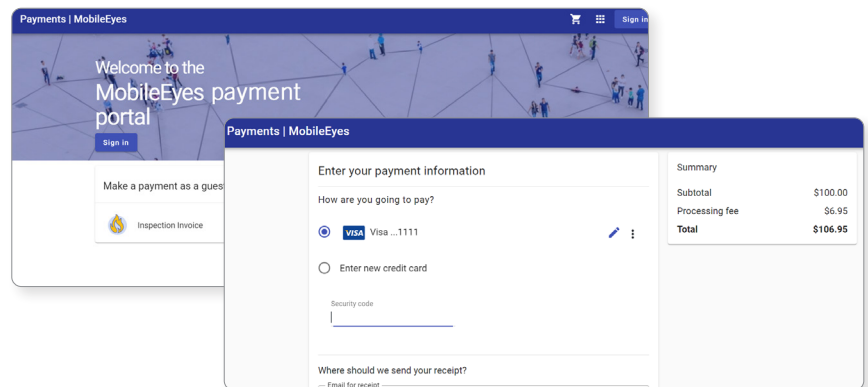

Payments for Fire Prevention Mobile is a public-facing, cloud-based payment solution that makes it easy for your department to accept online payments for fire inspection and building permit invoices. It integrates seamlessly with Fire Prevention Mobile.

- Tyler Technologies is a registered merchant service provider (MSP) that is equipped to handle all aspects of the payment process, reducing the number of entities required to handle contractors' and businesses' sensitive information.
- Payments has no subscription or licensing fee structure. No fees are charged to the department.

MAXIMIZE ELECTRONIC PAYMENT ADOPTION

Payments is a tightly integrated, secure payment platform for online payments. Fire Prevention Mobile users may maximize electronic payment adoption with the following features:

- A secure payment platform, compliant with PCI/PA-DSS standards
- Real-time payment processing with immediate updates of invoice balances in Fire Prevention Mobile
- Acceptance of debit and credit cards (such as Amex®)
- Ability to make payments from any device, anywhere, any time of day

BENEFITS FOR BILLERS

- **Maintain only one vendor relationship.** Tyler supports all aspects of the payment process, including onboarding, payment support, and reconciliation.
- **Enjoy better oversight.** Easily review payment details with administrative transaction and reconciliation tools.
- **Save money.** Tyler pays the credit card processing fee.
