

## SCHOOL ERP PRO

# Grant & Project Tracking

## STREAMLINE PROCESSES

Easily monitor and track grants that span multiple years.

## ENHANCE EFFICIENCY

Track all financial information as it relates to your district's grants and capital projects.

## INCREASE INSIGHT

View project details and monitor status and other important details from a single application.

Simplify the management of your grant and capital projects by easily tracking all related financial information such as budget expenditures and revenues. With the School ERP Pro Grant & Project Tracking application you can monitor grant project status and ensure compliance for an unlimited number of multi-year projects and/or grants.

## FEATURES & BENEFITS

- Define unlimited grants and projects with multi-year tracking of project budgets, revenues, and expenditures.
- Post transaction detail entry to both project tracking and general ledger accounts.
- Define project start date, projected completion date, funding sources, and status.
- Display and view project activities including purchasing, payables, payroll, receipts, and general ledger.
- Track the process and history of each grant or project.
- Track project expenditures by funding source.
- Enter invoices and time entry by project.
- Support next year's requisition entries and purchase orders.

## TYLER INTEGRATIONS

The application seamlessly integrates with Tyler's School ERP Pro offerings, including:

- Purchasing and Payables
- Warehouse
- Payroll
- Accounts Receivable
- General Ledger
